## TECHNICAL SKILLS

**Programming Languages**
- Java
- C
- Python

**Web Development**
- ReactJS
- NodeJS
- Express
- HTML
- CSS
- JavaScript

**Database**
- MySQL
- MongoDB

**Version Control**
- GitHub

## ABOUT ME

I have a strong passion for developing innovative software solutions. With solid knowledge of the MERN stack and experience in UI/UX design, I am capable of creating user-friendly and efficient web applications. I enjoy working in team environments that value continuous learning and practical problem-solving. I am seeking an opportunity to further enhance my technical skills and contribute meaningfully to real-world projects.

## EDUCATION

**Higher Education**

Bachelor of Science Honor's in Information Technology (Undergraduate) - 2023 -Present

Faculty of Information Technology University of Moratuwa

**Secondary Education**

G.C.E Advanced Level - 2022
- Tangalle Balika Vidyalaya
  Stream - Physical Science
  Combined maths- A | Chemistry- B | Physics- B

G.C.E Ordinary Level
- Passed with 7 A passes & 2 C Passes

## PROJECTS

- **Partner portal website**
  Second Year Software Project (2024 - 2025)
  - Role: Full Stack Developer
  - Tech: React.js, Node.js, Express.js, MongoDB, AWS S3
  Developed a secure, scalable web portal to streamline partner and customer interactions. Key features include project and ticket management, role-based access, AWS-integrated document handling, and real-time dashboards. Contributed to core modules like authentication, dashboard, and user management under Agile workflow.

Project Management Tools

- Jira

IDE

- VS Code
- Visual Studio

Other

- Figma
- Postman
- GIMP
- Canva
- Blender

## SOFT SKILLS

- Problem Solving
- Coordination
- Critical Thinking
- Team Work
- Leadership
- Time Management

## OTHER SKILLS

- 3D modelling
- Video Editing
- Graphic Design

## LANGUAGES

- Sinhala
- English

- **Coffee Dose - Modern Coffee Shop Website**
  Individual project

  - Role: Frontend Developer
  - Tech: HTML, CSS, JavaScript

  Built a fully responsive, interactive website for a coffee shop with features like a dynamic menu, filterable gallery, and multi-step reservation system integrated with WhatsApp. Optimized for both desktop and mobile users with modern UI/UX.

- **Portfolio Website - Ongoing**
  Personal Project

  Currently developing a personal portfolio website using the MERN stack (MongoDB, Express.js, React.js, Node.js). The project features an admin dashboard with full CRUD functionality for managing blogs, projects, and vlogs.

- **Coin Sorter Machine – Hardware Project**
  First year hardware group project

  Designed and built a coin sorter machine as part of a first-year hardware project. Contributed to the full development cycle from concept to implementation, applying fundamentals of electronics and mechanical design. Grateful to the team for their collaboration and commitment throughout the project.

## PARTICIPATION

- Participate in CodeRush 2025
- Participate in Hackmoral 7.0

## EXTRACURRICULAR ACTIVITIES

- Organizing committee member - FIT Future Careers 2024
- Engiunty 2.0 - Video Editing committe member
- Company Coordinator RuR 2024
- IEEE member at student branch in University of Moratuwa
- Organizing committee member at Fit sixes
